Renewal of CEOS support to the Permanent Supersite “New Zealand Volcanoes”

Dear Mr. Hamling,

On behalf of the Committee on Earth Observing Satellites (CEOS) it is my privilege to inform you that the CEOS Plenary, at its 31st session in October 2017, in accordance with the approved review process, and following the positive evaluation by the GSNL SAC and a recommendation by the CEOS WG Disasters Data Coordination Team, has agreed to renew its support to the New Zealand Volcanoes Supersite.

CEOS agencies intend to support the Supersite with the following data resources:

Agencia Spaziale Italiana (ASI)	COSMO-Skymed: 200 scenes / year until 2018
Centre National d'Etudes Spatiales (CNES)	Pleiades: No Pleiades data requested
Canadian Space Agency (CSA)	Radarsat-2: Original quota still apply (100 scenes not yet fully exploited)
Deutsches Zentrum für Luft- und Raumfahrt (DLR)	TerraSAR-X: 130 scenes / year until 2018
European Space Agency (ESA)	ERS-1 / -2 / ENVISAT-ASAR, Sentinel-1, -2: Any available acquisition
National Aeronautics and Space Administration (NASA)	ASTER any available acquisition EO-1 (Hyperion) any available acquisition MODIS: any available acquisition
USGS	Landsat-8: any available acquisition
EUMETSAT	MSG-SEVIRI: any available acquisition

Data will be made available free of charge for the purposes described in your proposal for the New Zealand Supersite, and on a best-effort basis. Individual data access procedures and applicable license and access conditions are applicable.

Sincerely,

Jens Danzeglocke,

DLR, on behalf of the Data Coordination Team of the CEOS WG Disasters
